DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-6 and 8-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Ueyoko (5,885,387) or, alternatively, Pouilloux (3,815,652).

These references are applied for the same reasons as set forth in paragraph 8 of the Office action mailed December 20, 2005: note that the first and second filaments are parallel in at least a portion of the path between crown and beads (Ueyoko col. 2 lines 23-25 and col. 5 lines 5-17 for example, Pouilloux col. 2 lines 3-54 for example).

In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., structure resulting from particular manufacturing method steps) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

3. Claims 1-6, 9, and 10 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Ogawa (6,085,817).

This reference is applied for the same reasons as set forth in paragraph 9 of the Office action mailed December 20, 2005.

In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., structure resulting

from particular manufacturing method steps) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

Claim Rejections - 35 USC § 103

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

5. Claim 8 is rejected under 35 U.S.C. 103(a) as being unpatentable over Ueyoko (5,885,387) in view of Dyer et al. (6,068,721) or, alternatively, Pouilloux (3,815,652) in view of Dyer et al. (6,068,721).

See paragraph 2 above: these references are combined for the same reasons as set forth in paragraph 11 of the Office action mailed December 20, 2005.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
